KUSHAAL.AKKIREDDY

B.Tech. Computer Science & Engineering — Cybersecurity

VIT Vellore, Tamil Nadu, India | kushaal.akkireddy2026@vitstudent.ac.in

PROFILE

First-year Computer Science and Engineering student specializing in Cybersecurity at VIT Vellore. Interested in defensive security, software development, and secure system design. Building practical programming skills through Python applications and multidisciplinary projects, with a focus on analytical thinking, debugging, and structured problem-solving.

TECHNICAL SKILLS

Programming: Python | Web: Flask, HTML, CSS | Development: Debugging, testing, basic frontend–backend integration | Cybersecurity interests: Threat modeling, application allowlisting, command authorization, defensive intrusion monitoring

PROJECTS

MindMetric — Quiz & Performance Analysis Web Application | *Python, Flask, HTML, CSS*

- Built a working web application with interactive quizzes, score calculation, answer review, and performance breakdowns.
- Connected application logic with the web interface and debugged issues during development.
- Includes an experimental IQ-style estimate; it is not a scientifically validated IQ measurement.

ATM Jackpotting Defense System — Multidisciplinary IoT Security Project | *Cybersecurity, Python, threat modeling*

- Contributing to threat research on ATM jackpotting and risks associated with unauthorized cash-dispensing commands.
- Exploring layered defenses involving application allowlisting, command authorization, and defensive intrusion monitoring.
- Focuses on threat modeling and the application-allowlisting component; project is ongoing.

EDUCATION

Vellore Institute of Technology (VIT), Vellore | First-year undergraduate

B.Tech. in Computer Science and Engineering — Cybersecurity

RELEVANT COURSEWORK

Problem Solving Using Python: programming fundamentals, control flow, string operations, and logical problem-solving. Multivariable Calculus and Differential Equations: multiple integrals, vector calculus, and differential equations. Engineering in Physics: quantum mechanics fundamentals, quantum states, operators, and mathematical modeling.

COMMUNICATION & CONTINUOUS LEARNING

Prepared an English presentation on Belbin's Team Roles, focusing on the Resource Investigator. Developing skills in organizing information, explaining concepts clearly, and connecting theory with practical applications.
